Singapore, 26 June, 2014 – SGX Mainboard-listed **Global Invacom Group Limited (“Global Invacom” or “the Group”)** announced today that it would raise US\$15.0 million (S\$18.7 million equivalent) from a placing in conjunction with a listing (“the AIM Listing”) of new shares on the Alternative Investment Market (“AIM”) of the London Stock Exchange PLC (“LSE”).

The fully integrated satellite communications (“Sat Comms”) equipment provider said it would issue 44.6 million new shares priced at 19.75 U.K. pence each (S\$0.42 equivalent), which will increase its existing share capital from 231.8 million shares currently to 276.4 million, representing an increase of 19.2%.

Shareholders of Global Invacom, at an Extraordinary General Meeting (“EGM”) earlier today, approved the issue of up to 54 million new shares (“the Shares”) priced between S\$0.35 and S\$0.60 to raise up to a maximum of US\$15.0 million (equivalent of S\$18.7 million) from the placing.

The AIM Listing will raise Global Invacom’s profile internationally and help it expand its operations by increasing its access to new retail and institutional investors in the U.K.

Commenting on the AIM Listing, Mr Tony Taylor, Executive Chairman of Global Invacom, said:

“We thank shareholders for support of the listing of shares on AIM which represents a major step towards our long-term goal to be the world’s leading integrated Sat Comms equipment provider. We are prepared to receive a broadened investor base and the surge of investor interest in London and Europe accumulated by the listing which will enhance shareholder value.”

The Group intends to complete the placing and AIM Listing on 2 July 2014 and in any event no later than 31 October 2014. In the event that more time is required, an immediate announcement will be made.
